

Quotes for a Cause

I'll be donating **\$5** for **Auto, Home,** and **Life** quotes* to Van Andel Institute Purple Community.

What is **Quotes for a Cause**?

Quotes for a Cause is a program aimed to generate donations for local non-profits. I chose Van Andel Institute because my wife and I have volunteered through the Purple Community and wanted to find a way to get more involved. Our families have been personally impacted by cancer and Parkinson's, so the cause is close to our hearts.

Why should I get a quote for **Auto**?

With Auto Insurance Reform now in effect, many families could see significant savings! It is also more important now than ever before to understand what you are paying for. It is my goal to not only maximize your savings, but to provide you with the coverage you **DESERVE** to have.

Why should I get a quote for **Life**?

While there are many uses of life insurance, the main purpose is to replace income for dependents, pay for final expenses, pay off debts, and provide education for future generations. Many people receive life insurance as a benefit through work, but it is often not nearly enough.

Why should I get a quote for **Home**?

Homeowner's insurance is often easily overlooked, especially if it is paid through your mortgage. Farm Bureau has fantastic homeowner's rates plus special programs for those who live on a lake or acreage. Even if you don't own your home, renter's insurance will replace your belongings in the event of a loss.
